

CARSEC

DEFREASING CLEANER FOR BODYWORKS
NO WATER required

**More than 90%
Biodegradable**

7 good reasons for using **CARSEC**

1. Clean and shine all bodywork by hand **without water**.
2. Very **economical** - not dilution or rinsing required
3. **Environmentally** friendly process that requires no water.
4. Removes **insect** residue and tar.
5. **Fast** and effective - clean a vehicle in under 30 minutes.
6. **Streak-free** finish on glass and bodywork. Reduces **limescale** deposits.
7. Silicone-free formula - no silicone or silicone derivatives.

Particularly suitable for use in

Transport

Construction

Public institutions

Technical Specifications	MICROFIBRES CAR	Instructions for use
Physical state: liquid Density: 1 g/cm ³ pH at 20 °C: 8.5 ± 0.5 Over 90% biodegradable For more informations : see MSDS.		If necessary, dust with the black Microfibre . Spray the product - works immediately with even, wetting coverage. Rub with the red Microfibre in circular motions, paying particular attention to stubborn stains. Dries quickly. As it dries, the product leaves a light white film. Buff thoroughly with a polishing microfibre (blue) . Use 250-500ml per vehicle depending on surface area and degree of soiling. For very dirty or heavily contaminated surfaces (grease, brake dust, diesel, mud), follow these steps: Spray the product with even, wetting coverage. Leave on. Wipe away the worst of the dirt, then proceed as described in the paragraph above.
