

EFISORB

NON-WOVEN INDUSTRIAL ABSORBENTS FOR LIQUIDS

7 good reasons for using EFISORB

1. Can be used for **preventive or remedial** purpose. Improved control of leaks and oil splatters in workshops.
2. Immediate pollution reduction.
3. **Simple to use** thanks to its light weight and compact size.
4. Highly **absorbent**.
5. Doesn't release **dust** and saves cleaning **time**.
6. Used absorbents can be **burnt** easily. Considerable reduction in absorbent waste.
7. Compact, simplified **storage**.

Particularly suitable for use in:

Industry

Public buildings

Construction

Particularly suitable for wiping up liquids, can be used for spills, overflows, leaks and accidents or pollution.

Characteristics	Instructions for use
Composition: non-woven polypropylene absorbent Colour: grey Available in sheets or rolls, two plies For more information: see MSDS.	The number of EFISORB absorbents to be placed on the surface will vary according to the volume of liquid to be absorbed. Leave on until the material has been completely absorbed. For preventive action: place under a machine to absorb drips or overflows. For remedial action following an accidental spillage, use like a sponge. Waste: may be incinerated, refer to current regulations.
