

SYNER ACTIV

**ALKALINE LIQUID
FOR THE AGRI-FOOD INDUSTRY**

7 good reasons for using SYNER ACTIV

1. SYNER ACTIV is an alkaline liquid product with slight foaming action and excellent **penetrating** ability.
2. Designed to eliminate organic and mineral soiling and to clean equipment in agri-food industry.
3. Suitable for use on hot **circuits** in alternating cycles with acid treatment, or on cold circuits as a standalone treatment.
4. When combined with **OXY ACTIV**, it dissolves wine tartar deposits. The two-product combination cleans and removes colour in a single operation.
5. The **SYNER ACTIV/OXY ACTIV** combination contains no chlorine and avoids residues in wine.
6. Complies with EC regulation 1358/2014 amending EC regulation 889/2008, for cleaning equipment classified for products from **ORGANIC** agriculture.
7. Complies with legislation on cleaning products for equipment which may come into contact with **foodstuffs** (Decree dated 08/09/1999 and its amendments).

Particularly suitable for use in

Agriculture

Food service trades

Agri-food industry

- ◇ In beverage industries, wine industries (vats, circuits, dispensers): removes tannin and wine crystals. Very effective for colour removal.
- ◇ In the prepared meal industry (cookers, vats, circuits,...).
- ◇ Meat industry (tunnels, churns, injectors,...).
- ◇ Dairy industries (storage tanks, containers, circuits).
- ◇ Livestock farming for degreasing floors/walls of facilities.

Characteristics	Precautions for use
Appearance: Clear colourless to yellowish liquid pH 1%: >12.00 Density: 1.465 g/cm ³ +/- 0.015 Storage: Keep away from light, heat and cold.	Compatible materials: cement, glass, stainless steel, polyester coating, tiled tanks. Do not apply on sensitive surfaces, painted surfaces, and light metals (aluminum, copper, brass, bronze, tin, iron). When in doubt, test on a small surface at the recommended concentration, let stand then rinse thoroughly. Product strictly for professional use. Formula registered at Nancy Poison Control Centre (N°1341): + 33 (0)3 83 22.50.50, INRS/ORFILA Emergency phone number : + 33 (0)1 45 42 59 59

Instruction for useAgri-food application:

Usage concentration should be adjusted according to level soiling, the method of cleaning and the equipment used.

Equipment	Method	Concentration	Temperature	Time
Sprayer, dosing system	CIP	1 to 3 %	Ambient to 80°C	10 to 30 mn
Steriliser				
Storage tanks, containers				

SYNER ACTIV is used in the meat, beverage, dairy and cheese industries.

Rinse thoroughly with potable water afterward.

Use alternately with DETARTRAL NT descaling product.

Viticulture application:

Equipment	Method	Concentration	Temperature	Time
Vats Circuits Containers Storage tanks Coolers	Circulation spraying	5 to 10 %	20°C Ambient temperature	25 to 60 mn
Containers	Soaking Circulation	1 to 4% combined with OXY ACTIV		5 to 30 mn

Circulate SYNER ACTIV solution through the system (1 to 4% in water) for 2 minutes and add OXY ACTIV (2 to 4%). The mixture remains active for maximum 1.5 hours.

For optimal descaling effectiveness, adjust solution pH to always remain above pH 10.

Replenish as needed.

In case of heavy scale buildup, it may be advisable to prepare a fresh solution.

Rinse thoroughly with potable water until neutralized (test with pH paper strip).
