

# TYRE UP

**AEROSOL LUBRICANT  
FOR TYRE MOUNTING**

## 7 good reasons for using TYPE UP

1. "TYRE UP" is a **liquid** lubricant that makes mounting and removing tyres easier.
2. **Resistant for external contaminants** - won't break down from exposure.
3. **Easy** and convenient aerosol format.
4. **Fast** application.
5. **Won't corrode** steel or aluminium.
6. Works well in **cold** conditions and dries **quickly** in 10 -15 minutes.
7. **Drip-free** application keeps the work area clean and safer for users.

## Particularly suitable for use in

Transport

Public institutions

Used to lubricate between rim and tyre when mounting and removing tyres on cars, vans and motorcycles.

Works at room temperature thanks to excellent cold weather performance.

### Instructions for use

#### Tyre removal:

After positioning the tyre iron, spray the product between the tyre and rim. Remove the tyre.

#### Tyre mounting:

Lubricate the rim and the tyre bead. The tyre will go on easily thanks to the lubricant's excellent penetrating properties. Fast 10-15 minutes drying time means you can balance the wheel right away.

For more information, see MSDS.
