AQUASOLV NG

FOOD SECTOR
CLEANING SOLVENT

7naturtech
TECHNICAL PRODUCTS PROTECTING THE FUTURE

7 good reasons for using **AQUASOLV NG**

1. AQUASOLV NG is an excellent degreaser for metal parts.
2. Can be mixed with water in any proportions.
3. Dissolves a large variety of substances such as grease, oil and resin.
4. Excellent **substitute** for degreasing solvents, such as trichlorethylene, perchloroethylene, toluene or xylene. Does not contain chlorinated solvents.
5. **Safe use**: no special classification for users or the environment.
6. **Neutral** and universal (has a wide spectrum of efficiency, compatible with most materials and seals).
7. May be used on surfaces in non-food processing areas that will later return to food-processing areas. Rinse with potable water before food contact"

Particularly suitable for use in

Industry Agri-Food Industry

Specially designed for degreasing metal parts (preparation of surfaces before painting, glueing or any other applications…).
Dissolves grease from stored mechanical parts.
Dissolves marks from stickers and glue.
Technical fluid for degreasing operations.
Effective on fresh paint (with mechanical action): it is used as a coalescing agent and as a co-solvents in paints / solubilising action : subject to testing according to the type of polymer component in the paint (only on mono-component – acrylic or glycerophtalic type – doesn't work on epoxy, polyurethanes). Can be used to clean paint application tools.

Technical Specifications	Instructions for use
Colourless liquid Density: 1.007 Flash point: >60°C Complies with the legislation on cleaning products for equipment that may come into contact with foodstuffs (Decree of 08/09/1999 and its amendments).	May be used diluted with water or neat. Apply by spraying with a cloth or immersion. Wipe and rinse if necessary. We recommend, given the very wide diversity of surfaces and surface treatment, to always do a preliminary test. For all contact with plastics, do a preliminary test. AQUASOLV NG can render some plastics brittle. May be used in degreasing fountains, neat or diluted, in FONT INOX HP, FONT INOX, SOLVENT FOUNTAIN fountains. May be used in diswashers for mechanical parts, neat or diluted. May be used in ultrasound baths, neat or diluted. Product non considered dangerous according to current regulations. For more information, see MSDS.

7 d'Armor

Certificate of Registration

7 d'Armor has achieved Registration status for AQUASOLV NG to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

AQUASOLV NG

Category Code: K1, K2

NSF Registration No. 173493

This product is acceptable for use as a cleaner or degreaser for use in non food processing areas (K1), which are used to remove oil, wax, resinous materials, or other substances not removable by using acidic or alkaline cleaning agents. Their use is limited to nonprocessing areas where there is no possibility of solvent vapors entering a processing area. Food processing equipment or utensils treated with such preparations must be washed with an acceptable detergent solution and thoroughly rinsed with potable water before returning to a processing area.

This product is acceptable for use as a solvent for cleaning electronic instruments and devices (K2), which will not tolerate aqueous cleaning solutions in and around food processing areas, where its use is not intended for direct food contact. Before using this compound, food products and packaging materials must be removed from the area or carefully protected. This compound must be used in a manner so that all odors associated with the compound are dissipated before food products or packaging materials are re-exposed in the area.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
