

D410

THINNER FOR POLYURETHANE & EPOXY COATINGS

7 good reasons for using D410

1. Paint can be used in **paint sprays guns**.
2. Paint **penetrates** the surface better.
3. Coats **dry faster**.
4. Paint goes on **easier**.
5. Specifically formulated for the application of our **paints** such as EPOXPRIM, EPOXOLE, MONOSOL and TRAFFIC 200 H.
6. Can be used to **dilute** the first coat.
7. Can be used to **clean** equipment after use.

Particularly suitable for use in

Industry

Public buildings

Construction

For the application of polyurethane, epoxy or urethane alkyde resin, paints.

Characteristics	Instruction for use
Composition: mixture of esters ketones, alcohols. Density: 0.878 Flash point: 8°C. For more information, see MSDS.	For the use of D-410, refer to the technical data sheet of the coating concerned.

GB26012023/1

7 +

CLINGET : Hand-cleaning wipes
