
DKAP VERT

PAINT & GRAFFITI REMOVER
NON CHLORINATED

READY TO USE

7 good reasons for using DKAP VERT

1. **Multi-purpose**: DKAP VERT is efficient on all acrylic, glycerophtalic, vinyl, polyurethane, mono and bi-components paints. After action, some paints do not blister but can removed easily with a scraper.
2. Works on most graffiti and does **not attack** surfaces.
3. **Thixotropic gel**, GREEN DKAP applies to all surfaces even vertical.
4. **Ready and easy to use**, it is time-saving. Adapted to work requiring a good finish.
5. **Neutral** on most surfaces such as wood, concrete, aluminium and all the metals.
6. After action and **complete evaporation** of the product, is totally eliminated either by brushing.
7. Can be used by spraying **neat and cold** but also by brushing.

Particularly suitable for use in

Institutions Construction

Effective on all the acrylic, glycerophtalic, vinyl, polyurethane, mono and two-components paints. Graffitis.
Can be used on most surfaces, wood, concrete, aluminium, metals …

Technical Specifications	Instructions for use
Physical state: thixotropic gel Colour: clear but milky Odour: ether pH of the pur product: non measurable. Exists in bulk and in spray. For more information, see MSDS.	It is recommended to wear protective gloves and eye protection. Use only in a well-ventilated area. Shake spray before use.up to the ball taking off. Spray at a distance of 20 cm from the surface to be stripped or cleaned. Leave to take effect from few minutes according the paint thickness and the surface. The appearance of cracks and blisters indicates the product efficiency. Remove the paint with a spatula. The stripped parts can be cleaned with a dry cloth, a spatula, or a wire brush. Repeat this operation if necessary. After use, turn the spray in order to clear it. On fragile plastic materiel, make a preliminary test on a hidden part of the surface. **Do not spray near connected electrical devices. Usable only when the equipment is turned off. Wait 5 min before switching on the devices.** Permanent dipping is not advised because of the product's flammability. Emulsionable in water for cleaning tools with water immediately after use.
