

DRISOL S

NO SLIP ABSORBER AND CLEANER

7 good reasons for using DRISOL S

1. **Highly** absorbent
2. After absorption, it does not become muddy and remains on the floor in the presence if there is a draft.
3. May be used **inside** or **outside**.
4. Total chemical **inertia** and does not disaggregate.
5. Absolutely **odourless**. **Non-flammable**.
6. **Non-abrasive** for floors.
7. Complies with the decree of 19th December 2013 modifying the decree of 8th September 8th 1999, modifications which concerned processes and cleaning products for materials and objects in contact with **foodstuffs**, products and drinks for the human and animal **food**.

Particularly suitable for use in:

Industry

Public buildings

Leisure facilities

Absorbs oils, hydrocarbons, solvents, paints, emulsions....

Non slip, avoids accidents on slippery floors (due to animal or vegetable oils).

Leaves a clean dry floor after cleaning by absorption and sweeping.

Can be used on tiled-floors and painted cement-floors.

Can be used on roads.

Characteristics	Norms	Instructions for use
Density: around 440 kg/m ³ Grain size: 0.3 to 0.7 mm Absorption power for water: 157% Absorption power for hydrocarbons: 171% Diatomaceous earth SPECIFICALLY calcinated at a temperature of 850°C with a high oxidation rate. This optimises porosity and so gives the best absorption capacity.	CONFORM to the norm AFNOR NFP98-190 « Absorbent products for usage on roads ».	Spread a thin layer (several millimetres) on the floor, let it take effect and then simply sweep. Do not used for hydrofluoric acid. For more information, see MSDS.
