

DRISOL S

NO SLIP ABSORBER AND CLEANER

7 good reasons for using DRISOL S

1. **Highly** absorbent
2. After absorption, it does not become muddy and remains on the floor in the presence if there is a draft.
3. May be used **inside** or **outside**.
4. Total chemical **inertia** and does not disaggregate.
5. Absolutely **odourless. Non-flammable**.
6. **Non-abrasive** for floors.
7. Conform to the norm **AFNOR NFP98-190** « Absorbent products for usage on roads ».

Particularly suitable for use in:

Industry

Public buildings

Leisure facilities

Absorbs oils, hydrocarbons, solvents, paints, emulsions....

Non slip, avoids accidents on slippery floors (due to animal or vegetable oils).

Leaves a clean dry floor after cleaning by absorption and sweeping.

Can be used on tiled-floors and painted cement-floors.

Can be used on roads.

Characteristics	Instructions for use
<p>Composition : Diatomaceous earth Colour : red/brown Uncompressed density: 542 kg/m³ Grain size: 0.3 to 0.7 mm Absorption power for water ⁽¹⁾: 161% Absorption power for hydrocarbons ⁽¹⁾: 161% Dust emission rate ⁽²⁾: 1% Residual adhesive rate ⁽³⁾: 94% Calcination temperature: 800°C Loss on ignition at 1025°C: 2%</p> <p><small>(1) Absorption according to the NF T 90-361 standard: uncertainty 5% - (2) Dust emission rate according to the NF P 98-190 standard: uncertainty 2% - (3) Residual cling rate according to the NF P 98-190 standard: uncertainty 5%</small></p>	<p>Spread a thin layer (several millimetres) on the floor, let it take effect and then simply sweep.</p> <p>Must be destroyed in accordance with absorbed pollutants regulations. Do not used for hydrofluoric acid.</p> <p>For more information, see MSDS.</p>
