

NET FREINS

DEGREASING OF BRAKING SYSTEMS

7 good reasons for using NET FREINS

1. Degreasing, cleaning, **desoxydizing** for brakes.
2. Accurate spraying in **any position**.
3. **Fast** acting.
4. **Powerful** degreasing agents.
5. Efficient dirt **removal**.
6. Fast **evaporation**.
7. Practically **odourless**.

Particularly suitable for use in

Transport

Industry

Construction

Technical fluid for degreasing, washing and cleaning of braking systems.

Particularly suited for calipers, disks, drums, polluted by lubricants of mineral, vegetable or synthetic origin.

Eliminates all pollution. E.g. lubricants of mineral, vegetable or synthetic origin, liquid of brakes, residues from pads, cleaners + fittings, micro-shavings.

NET FREINS is an excellent solvent of most lubricants such as:

Lithium greases	Fixing pads
Calcium greases	Solid lubricating pigments
Gels of silica, bentones	Running-in fluids
Castor-oil plant greases	Glycols

Characteristics		Instruction for use
Composition	hydrocarboned solvents.	Spray the surface to be cleaned once or twice at a distance of 30 cm, let it take effect for a few seconds so that the product penetrates into stains. Begin again if it is necessary.
Density	<1	
Flash point	<0°C	
Propellant gas	CO ₂	
Volume net:	400 ml	
For more information, see MSDS.
