SUNICLIN

SPECIAL CLEANER FOR USE IN CONSTRUCTION & ON TARPAULINS

7 good reasons for using **SUNICLIN**

1. SUNICLIN is a **powerful** foaming alkaline cleaner for all types of professional vehicles.
2. Just a small amount diluted in water eliminates road film **with no need for scrubbing.**
3. Spray on using an automatic spraying machine or a foam gun.
4. Formula strengthened with sequestering agents. Doesn't leave marks after rinsing.
5. Surfactant-rich formulation creates a dense and smooth foam which adheres even to **vertical** surfaces.
6. Releases a light **fragrance** during application.
7. Complies with legislation on cleaning products for equipment which may come into contact with foodstuffs (Decree dated 08/09/1999 and its amendments).

Particularly suitable for use

Transport Construction Agriculture

For washing all types of bodywork(HGVs, light vehicles,…).
Agricultural sector : farm sprayers.

Technical Specifications	PULV MOUSSE	Instructions for use
Physical state: perfumed clear liquid Colour: yellow Density: 1.16 pH: 13 STORAGE CONDITIONS Store in a cool, dry and well-ventilated area. Store in the original closed packaging., protected from direct sunlight. Storage temperature; 5°C to 40°C. Best before: 36 months For professional use only. For more information, see MSDS.		Best results are obtained on dry surfaces. On warm and/or dull bodywork, we recommend wetting the surface first. Manual spraying or a foam gun: Dilute SUNICLIN in cold water. Shake well before use. Spray from the bottom to the top. Leave on for 1-2 minutes and rinse off before it drys. Set high pressure sprayers to between 80 and 100 bars – Water flow 11-12 l/mn. (For large vehicles, this may need to be repeated). Automatic cleaning (gantry wash system): product dosage 1-3% at nozzle exit. For regular maintenance: dilute to 0.5-2% concentration. For mosquito removal: dilute to 2-4% concentration. Rinse circuits, surfaces treated and equipment thoroughly with clean or drinking water.
